WORLD  
NARCOLEPSY  
DAY SEPTEMBER 22

Help us elevate narcolepsy awareness by creating a custom photo or GIF and sharing it to social media! Check out the below tips to make the most of your experience.

## Virtual Booth Tips

### TURN SCREEN BRIGHTNESS UP

Turn your screen brightness up on your phone or computer if you're taking a photo or GIF. This helps brighten images!

### GOOD LIGHTING IS KEY

If you're taking a photo or GIF (2 photos looped together), make sure you have good lighting on your face. You can turn on the lights in your room or take your photo/s facing a window with natural sunlight.

### TAKE PHOTO/S IN FRONT OF A SOLID COLOR WALL

Choose a solid color wall that doesn't match the color shirt you are wearing. This makes removing the wall and replacing it easier for our virtual booth!

### USE CHROME, FIREFOX OR SAFARI

For the best experience, we recommend using Chrome, Firefox or Safari browsers.

### DO 2 DIFFERENT POSES FOR GIFS

Have fun with this! Just don't forget to smile!
